

APFEL – 2.0mm HARD METRIC CONNECTORS

CODING KEYS

Coding keys are snapped into both male and female of MPC (Multipurpose Center) in the Type A, L and M connectors to prevent damage to the system resulted from incorrect insertion of cards. Only connector pairs equipped matching coding keys are intermateable. The unique color of the coding pairs provides easy visual identification of the correct mating connectors.

Ordering Information

Coding Key	Code Number	Color	Part Number	Coding Key	Code Number	Color	Part Number
	3568	Pastel orange	PMC3568		1247	Pastel orange	RMC1247
